

NATIONAL SWEATER DAY - THURSDAY, FEB. 9TH, 2012

Dear Parents/Caregivers,

Our school will be taking part in **National Sweater Day** this year!

World Wildlife Fund (WWF) Canada is calling on Canadians to turn down the heat and sport a sweater for one day. This shows you're committed to taking action on climate change.

Last year, thousands of people across the country took part and schools, businesses and homes across the country reduced their energy for the day. Together, they showed the importance of working together for a healthier planet.

On Thursday, February 9th, students are asked to wear a sweater to school.

We will lower the temperature in the classroom for the day, and learn how saving energy can help save our planet. If you want to join in, you can also lower your thermostat at home a few degrees.

We look forward to having a warm and cozy day.

Turn down the heat! Turn up your sweater!

Yours truly,

Ms. Evans ☺
